

Python Syllabus (Class3)

Class Number :5

File To Be Opened :5

- **Python Demo and Installation -**
- **Python Features** Notes Number -1
- **Python Advantages and Disadvantages** Notes Number -1
- Python Variables Notes Number -1
- Python Keywords Notes Number -1
- Python DataTypes Notes Number 2
- Python Operators - Notes Number 3
- Python Conditional Statements -Notes Number 4
- Python Looping Statements-Notes Number 5
- Python Numbers and String Functions -Notes Number 6
- Python List Functions -Notes Number 7
- Python Tuple Functions -Notes Number 8
- Python Set Functions -Notes Number 9
- Python Dictionary Functions -Notes number 10
- Python Inbuilt functions -Notes Number 11
- Python File handling - Notes Number 12
- Python Modules - Notes Number 13
- Python Classes and objects
- Python Exception Handling
- Python UserDefined Functions
- Python Inheritance
- Python Polymorphism and Data abstraction
- Python Virtual Environment and Python Sql
